PURE ROSE OIL

Rose is justifiably titled Queen of Flowers. Her heavenly fragrant blossoms bring not only joy to the eye but also heal. Rose oil is a natural product extracted by distilling the flowers of the oil-producing Bulgarian rose 'Rosa damascena'. The precious liquid extracted from the fragrant rose petals is known since ancient times for its anti-inflammatory, softening and anti-allergic action, promoting regeneration of sore and aging tissues.

BULGARIAN ROSE OIL NAT'AURA - ORGANIC

03025001

The Bulgarian Rose Damascene is precious in an irrefutable way – the rose oil is the most valuable essential oil with a fragrant, calming and purifying effect. There have to be processed thousands of rose blossoms in order to obtain a single drop. The rose oil cleans and refreshes the skin, moisturizes and maintains the hydro-lipid balance, stimulates cells regeneration, soothes and removes inflammatory processes. It has an anti-oxidant effect slowing up the appearance of wrinkles.

Beauty through health, purity and harmony with nature

Inspired by this comprehensive and natural approach, we developed REGINA FLORIS – ROSE OIL OF BULGARIA.

The use of plant ingredients of the highest quality in their most effective concentration is a main priority in our personal care products. Obtained by distillation from the oil-bearing rose ROSA DAMASCENA MILL, also referred to as the “Queen of Flowers”, Bulgarian rose oil is the most precious, expensive and difficultly derived essential oil in the world. Containing over 300 invaluable substances with marvellous effect to the human body, it is a vital elixir, used in the cosmetic, pharmaceutical and food industries all over the world. Bulgarian essential rose oil has a strong anti-inflammatory, anti-bacterial and regenerating action. It is the perfect means to nourish, soften and regenerate sore and aging tissues, slowing down the process of aging at cell level. With a gentle and enchanting fragrance, the essential rose oil has a powerful aromatherapeutic action – removing stress and acting as a potent antidepressant and aphrodisiac.

Basic principles for efficacy and safety of the products:

The natural active ingredients are a priority | Paraben free | Without synthetic colours | Without ingredients of animal origin
Without petroleum-based products | Textures combining efficacy and pleasure | Pure Bulgarian rose oil added in each product

ROSE OIL

YOGHURT of BULGARIA

WITH
ORGANIC ROSE OIL

YOGURT OF BULGARIA combines two of the most unique elixirs in the world – Bulgarian YOGURT and ORGANIC ROSE OIL. After an in-depth study of a variety of YOGURT-based active components, we included the following ingredients in the YOGHURT OF BULGARIA line of cosmetic products:

AC YOGURT DERMAL RESPIRATORY FACTOR – ferment, synthesized by live *Lactobacillus bulgaricus* cells and isolated from them through state-of-the-art technological processes. Obtained by this method, the product acts as a probiotic, stimulating the synthesis of collagen, increasing oxygen absorption and improving cellular respiration by 115%. As a result of the improved cellular respiration, the cell expands its energy reserves, thus enabling it to fight against environmental aggressors and aging. The consequences of the improved cellular respiration are most evident in the epidermis of the skin, which is purified, rejuvenated, strengthened and re-balanced.

AC YOGURT HYDROLYSATE – contains irreplaceable yogurt protein in a hydrolyzed form. The process of protein hydrolysis enhances its functional and nutritional properties. A 30-day in vivo test with a product containing 5% AC Yogurt Hydrolysate has shown 12% improvement of the hydration of the skin.

Paraben free | Without synthetic colours | Alcohol free | Without petroleum-based products
Made without genetically modified organisms – *Lactobacillus bulgaricus* | A joy to the senses | Excellent skin tolerance

YOGURT OF BULGARIA is a line of cosmetic products designed to provide a quick and effective impact on the skin, thanks to the advanced probiotic active ingredients, natural Bulgarian rose oil, natural essential plant oils and vitamins.

HYALURON & CUCUMBER EXTRACT

Intense hyaluron lifting

This exceptionally effective combination of two types of hyaluronic acid, cucumber extract and panthenol fights against the stress and the harmful environmental factors. Hydrated, firm, and radiant skin straight after the first application.

High molecular weight linear polysaccharide, a key component of the human skin with an important structural function. It has high capacity to bind with water. The essential ability of the high-molecular-weight hyaluronic acid to form an airy moisturizing film on the epidermis facilitates its effective hydration and smoothing. Cucumber extract possesses moisturizing and smoothing qualities combined with high skin compatibility. It stimulates the regeneration and renewal of the cells in the epidermis. The extract tones, firms, freshens, and visibly hydrates the skin, and it also facilitates the restoration of its elasticity.

Owing to its specific size (molecular weight range within 50-3000 KDa.), it permeates well into the epidermis and assists the penetration of oil- and water-soluble active ingredients. Besides improving the skin's barrier function and elasticity, it also reduces the depth of wrinkles.

POMEGRANATE & ROSE

RESVERATROL AGE CONTROL

A cosmetic line designed to make routine daily procedures into an aesthetic and sensual experience. Designed for effective care and prevention of skin ageing, acquired the undesired signs of time and loss of tone. The active ingredients in every product have proven effectiveness by supplementing and strengthening each other's action.

The fruit of the pomegranate from antiquity to the present day is a symbol of beauty, health, fertility, prosperity and longevity. Modern science confirms the ancient knowledge that the valuable fruit has a beneficial effect on humans and has soothing, toning and regenerating properties. The extremely rich composition of the individual parts of the fruit, as well as the high content of biologically active substances, determines the diverse application in cosmetics and the excellent effectiveness of the final product.

The unique properties of the Bulgarian rose oil have been known since ancient times and today rose oil is an indispensable ingredient in cosmetics. It has a toning effect, smooths out wrinkles and restores the skin's firmness and elasticity. The composition of rose oil contains 283 ingredients that determine the unique scent of fresh roses, which can be described as sweet, colourful, feminine, rich, warm, tempting and intoxicating. The oil has a miraculous effect on the human body, and its properties make it an indispensable elixir in the cosmetics, perfumery, pharmaceutical and food industries.

ULTRA NOURISHING ANTI-AGING CREAM

02813003

Intensive nourishing cream with powerful nourishing action protecting the skin from premature aging. Rich formula focusing on the loss of elasticity, tone and luster of the skin. Contains Caviar Extract, Olive Oil and Creatine. Caviar extract actively nourishes and protects the skin, fights the appearance of signs of aging. Olive oil prevents dehydration, while at the same time preventing the formation of wrinkles. The formula also contains UV filters counteracting photo aging. Day after day, the skin becomes more radiant and looks visibly younger. For all skin types.

Volume: 50 ml

ULTRA HYDRATING DAY CREAM

02813001

Light and soft as silk cream, enriched with hyaluronic acid, raspberry seed oil and creatine. Actively moisturizes and energizes the skin and gives it an irresistible gloss. Hyaluronic acid retains moisture in the stratum corneum of the epidermis and creates a protective film on the surface, which prevents the dehydration of the deeper layers of the skin. The formula also contains UV filters counteracting photo aging caused by the harmful UV rays. For all skin types.

Volume: 50 ml

ULTRA REGENERATING NIGHT CREAM

02813002

Velvety soft and rich night cream, enriched with a highly effective complex of natural oils – Argan Oil, Olive Oil and Shea Butter. The Argan oil restores, nourishes and protects the skin from drying out and damaging external influences. Rich in vitamins A and E, olive oil effectively hydrates the skin and prevents the formation of wrinkles. Effectively nourished and rested, the skin is ready to meet the challenges of the new day. For all skin types.

Volume: 50 ml

ROYAL ROSE LINE

THERE IS A NEW DEFINITION FOR BEAUTY – ROYAL ROSE.

It may be a cliché, yet it is nevertheless true: ROSA DAMASCENA, the Bulgarian oil-yielding rose, also called the Queen of flowers, is a symbol of Bulgaria and possibly also a symbol of the beautiful Bulgarian woman. Taking a bottle of rose oil in your hand actually gives you a precious piece of pure nature. Exactly that has inspired, is inspiring and possibly will continue to inspire the creators of cosmetic products to use rose oil as a guarantee of beauty. ROYAL ROSE is a cosmetic line uniting and staking its name on the unique qualities of the BULGARIAN ROSE OIL and ARGAN OIL. The Bulgarian rose oil with its distinct anti-inflammatory, anti-bacterial and regenerative qualities is an ideal product to nourish, soften and regenerate the skin and slow down the processes of ageing. The oil derived from the kernels of the argan tree, the tree of life, has long been recognized all over the world as a phenomenon in the world of health and beauty products. It is light and airy, softens the skin, reduces the appearance of wrinkles, removes the skin's imperfections. With delightful textures and subtle, delicate fragrance, the ROYAL ROSE cosmetic line combines efficiency with the daily pleasure of using the products.

ROSE OIL; ARGAN OIL

The Bulgarian Rose Damascene / Rosa Damascena / is precious in an irrefutable way – the rose oil is the most valuable essential oil with a fragrant, calming and purifying effect. There have to be processed thousands of rose blossoms in order to obtain a single drop. The rose oil is the liquid gold of Bulgaria. It is of highest quality due to the favorable climate conditions and the ecological environment where the essential rose plants are grown – the so cold Rose Valley, which is considered to be their natural environment not only within the country but in the whole world. The unique curative characteristics of the rose oil and rose water that are famous from the remote past are used successfully in the production of cosmetic products. They clean and refresh the skin, moisturize and maintain the hydro-lipid balance, stimulate cells regeneration, soothe and remove inflammatory processes. They have an anti-oxidant effect slowing up the appearance of wrinkles.

LAVENDER

ORGANIC OIL

HEALTHY SKIN IS BEAUTIFUL!

Lavender - a medicinal plant with a miraculous aroma, the benefits of which have been highly valued and spread since ancient times. In the past, lavender was an expensive plant that only royalty could afford. Over the years, people have discovered that lavender is not only beautiful and fragrant, but also beneficial for health and skin. With its powerful antioxidant, antimicrobial, soothing and antidepressant properties, lavender oil is widely used not only in cosmetics, perfumery and aromatherapy, but also in pharmacy, alternative and folk medicine.

Bulgaria is one of the largest producers of lavender oil in the world. The unique climate, the rich and specific soil of the Bulgarian lavender valleys create extremely favorable conditions for growing lavender, rich in high-quality lavender oil. It has a sweet, herbal aroma and is used as a top note in perfumery and cosmetics worldwide.

THE VIA NATURAL LAVENDER cosmetic line combines in itself in a unique way pure, quality Bulgarian organic lavender oil and lavender water, which nourish, hydrate, restore and give the skin and hair a wonderful shine. The antioxidant and antibacterial action of lavender oil combined with its small molecular structure help it penetrate deep into the skin, stimulating regeneration processes from the inside out. It is suitable for all skin types, especially for oily and acne-prone skin. A great choice for those who are looking for a natural, gentle, and effective way to care for their skin.
